Healthcare's Most Advanced, Integrated Communication Platform

- **EHR, telemetry, labs, and scheduling integration**
- **Group video & voice consults**
- **Nurse call & PBX integration with real-time alerts and calling**

Better Care Team Collaboration Across the Organization and Beyond

Change the way your teams collaborate with TigerFlow⁺, healthcare's most comprehensive, all-in-one platform for enabling top-to-bottom communication transformation.

Connect your facilities, data, staff, and even your patients on a single network for faster workflows, lower costs, and better care for patients. Layer in additional capabilities such as telehealth and virtual care for greater patient engagement by video, voice, and text.

### One Platform for the Entire Organization

TigerConnect brings clinical and non-clinical staff together on one communication platform so the entire organization can connect and collaborate across departments and facilities.

Integrated system data for real-time alerting

Quickly integrate with third-party data sources such as the EHR, nurse call, telemetry, labs, and imaging. Intelligently route key data to recipients by their role and shift assignment.

100% Cloud, 99.99% Uptime Reliability

TigerConnect's cloud-based platform gives you lower costs, seamless on-boarding, easy user management, and uptime that beats any on-premise solution.
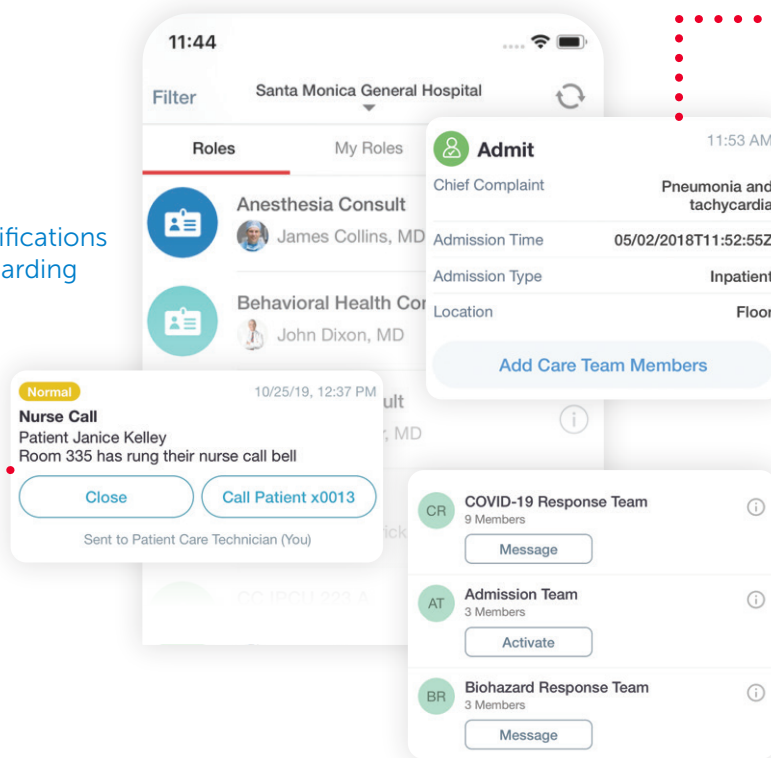

Nurse Call
Receive instant notifications and escalations regarding patient data

Two-Way EHR Integration
Select and save text messages and video session data back to the patient record.

Team-Based Activation
Instantly activate rapid response teams (RRT) in code situations

TigerFlow⁺ Features:

EHR Integration
Configurable real-time alerts make EHR data instantly accessible and actionable.

Lab Integration
Automatically distribute lab results when they're available for more informed collaboration.

VoIP Video & Voice
Conduct remote video consults and voice calls with families or the care team.

Image Results
Receive and share hi-res MRIs, CTs, and more with zoom-in and markup capabilities.

Multiple Device Options
Access TigerFlow⁺ from mobile devices as well as the desktop.

Escalated Messaging
Ensure urgent requests are addressed immediately with time-triggered escalated messages.

About TigerConnect

As healthcare's most widely adopted communication platform, TigerConnect uniquely combines telehealth, patient texting, and clinical communications in a single, easy-to-use, cloud-based solution. Trusted by more than 6,000 healthcare organizations, TigerConnect maintains 99.99% verifiable uptime and processes more than 10 million messages each day.
